## SUMMARY

Detail-oriented and technically skilled digital professional with strong experience in software development, project coordination, product management, and cross-functional communication. With a background in system architectural design, UI/UX, and collaboration, I have successfully managed multiple technology-driven projects, ensuring clarity, accountability, and alignment between vision, design, and execution.

## EDUCATION

**Federal University of Technology Akure** – Akure, Nigeria.

Bachelor of Technology

Field of Study: Information Technology

## CORE TOOLS

- Programming Languages: CSS, Python, PHP, JavaScript, typescript
- Frameworks: React.js, Next.js, Tailwindcss, node.js.
- State Management: Zustand
- Version Control: Git and Github
- Deployments: vercel, Github pages
- Testing and Debugging: Jest
- Google workspace and tools

## CORE SKILLS

- Frontend Development: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, TailwindCSS
- Backend Development: Node.js, Express.js, Supabase, PostgreSQL, resend, Cloudflare, OpenAI
- Web Scraping: Puppeteer, Axios, Cheerio
- UI/UX Design: Figma (wireframes, prototyping, user research)
- Version Control & Deployment: Git, GitHub, Vercel, GitHub Pages, render, railway.
- Testing & Debugging: Jest, Console-based debugging, browser DevTools.
- Soft Skills: Teamwork, Problem-solving, Continuous learning, Collaboration, Leadership, Communication

## Core Strengths

- Project coordination & milestone tracking
- Technical reporting and documentation
- File organization
- Effective Communication
- Use of collaborative tools (Notion, Google Workspace, Figma)
- Accountability and issue escalation management

## PROFESSIONAL EXPERIENCE

### Full Stack Developer – SFF (Speak French Fast)

Remote / November 2025 – current

#### Nigeria

- Developed and deployed a full-stack web application, handling both frontend and backend

implementation.

- Built responsive user interfaces and integrated backend services with database connectivity.
- Designed and managed database structures to support application functionality and performance.
- Submitted detailed daily and weekly progress reports to track development milestones.
- Recorded and shared video walkthroughs to demonstrate completed features and development progress.

## **Project Manager – BGYCC (Becoming the Greatest You Christian Community)**

### **Mobile App development**

*Hybrid / October 2025 – February 2026*

#### **Nigeria**

- Led and oversaw overall project management activities, ensuring timely execution of deliverables.
- Coordinated team members and validated module completion before integration into the main system.
- Prepared and submitted comprehensive weekly coordination reports highlighting progress, risks, and next steps.
- Participated in testing and validation of the Minimum Viable Product (MVP) to ensure functionality and alignment with project goals.
- Collaborated with cross-functional teams to monitor milestones and maintain workflow efficiency.

## **Software Developer/IT specialist – Highbush Technologies**

*hybrid / May 2025 – October 2025*

#### **Ikeja, Lagos.**

- Worked on the **EFair** project, focusing on frontend UI enhancement and backend integration.
- Worked on the development of the **CheckHB e-commerce website**, focusing on both frontend and backend tasks using **Next.js**, **TailwindCSS**, and **Express.js**.
- Participated in user interface optimization and implemented interactive components to enhance user experience.
- Contributed to **digital marketing efforts**, including campaign planning, social media strategy, and analytics tracking.
- Created and managed content for blogs and product pages to support SEO and customer engagement.
- Collaborated across teams to maintain project timelines and deliverables using GitHub and project tracking tools.

## **Product Manager – Dluxfly**

*hybrid / May – September 2025*

#### **Ikeja, Lagos.**

- Coordinated design reviews, content updates, and ensured consistency with business model requirements.
- Managed internal communication channels and maintained documentation.
- Contributed to team coordination, ensuring effective collaboration and task management.
- Supported the development of employee experience and performance tracking initiatives.

## **Web Scraping – Freelance**

*Remote / June 2025*

- Developed custom web scraping scripts using **Puppeteer**, **Cheerio**, and **Axios** to extract structured data from e-commerce and directory websites.
- Automated data collection tasks for small business clients, improving efficiency in lead generation and market research.
- Ensured compliance with ethical scraping practices and optimized scripts to handle website changes and rate limits.
- Delivered clean, analyzable datasets in formats like JSON and CSV.

**ALX** – Lagos, Nigeria.

### **Frontend Developer intern**

*July 2024 – current*

- Collaborated with a team of developer as a UI/UX designer creating a wireframe for the software solution
- Gained valuable team working experience by participating in multiple group projects
- Improved requirement gathering skills through client-focused communication during team projects.

**FUTA ENT** – Akure, Nigeria.

### **Software Development Training**

*June 2024 – October 2024*

- Collaborated with cross-functional teams to deliver high-quality software products.
- Optimized existing software by identifying and fixing bugs.
- Analyzed software constraints and proposed practical design solutions, improving project turnaround time by 15%.

## **LEADERSHIP & ORGANIZATIONAL ROLES**

---

- General Secretary – ACOMS(Association of Computing Students Futa Chapter)
- Assistant General Secretary – AITS(Association of Information Technology Students)
- Public Relations Officer – AITS(electoral committee)
- Team Lead – SGS Growth scheme
- Team Lead – FUTA Entrepreneurship Scheme

*Responsibilities included documentation, organizing meetings, team coordination, effective communication, decision-making, and report presentation.*

## **CERTIFICATIONS & BADGES**

- CCNA 1 – Introduction to Networks (Cisco Networking Academy)
- ALX Frontend Developer Certification
- ALX Professional Foundation Certificate
- Jobberman Soft Skills Certification
- Certificate of Service – ACOMS
- Certificate of Service – AITS

## **INTERESTS**

---

Enthusiastic about ethical hacking and exploring cybersecurity trends  
Business enthusiast

## **LANGUAGES**

---

- Proficiency in English language
